

RQ2 Faithfulness Distribution by Architecture

n = 140 questions per architecture. LLM-as-judge faithfulness (Qwen3-8B, custom/RAGAS-inspired) — not official RAGAS.

MEAN labels and diamonds are arithmetic means from phase17_descriptive.csv. The box midline is the median. This figure does not mark statistical significance.

Source: official Phase 16 judge JSONL joined to Phase 16 processed cases. UQ includes abstained drafts.
